**RESPONSE TO DECISION ON PETITION
AND REQUEST TO WITHDRAW ABANDONMENT**

This communication is responsive to a Decision on Petition mailed February 24, 2003. The Applicant respectfully petitions the Commission to withdraw the holding of abandonment of the above-identified application because it was sent prematurely.

Alternatively, a terminal disclaimer is enclosed to address the issue raised in the Decision on Petition.

Timing of the Abandonment

The special programs examiner states that the assertion regarding the premature nature of the mailing of the Notice of Abandonment is without merit. Petitioners do not dispute that the mailing of the Notice of Abandonment was sent at the proper time, namely, October 21, 2002, but assert that an entry of abandoned was made on October 18, 2002, and that it caused the patent office to not enter correspondence into the file.¹

When the correspondence was initially filed by facsimile on October 18, 2002 (a Friday), someone from the Patent Office called and said that the correspondence was being rejected

¹ The examiner notes that the copy of the Notice of Abandonment provided by petitioners omitted the cover page. This latter statement appears to imply that the submission was misleading. However, the first sentence of the first paragraph on this topic in the previous Request to Withdraw Abandonment stated that the Notice of Abandonment was mailed on October 21, 2002.

because the application had already been abandoned. On investigation, it was learned that the application had been listed as abandoned before the due date of October 19, 2003 (a Saturday). This was the first time the undersigned had encountered this situation, or the situation of the patent office essentially rejecting a piece of correspondence on such a basis, and thus it made a memorable impression.

In a later telephone call to the Patent Office, we were told that the abandonment was listed in PALM as being effective on October 18, 2002.

Consequently, there is no dispute that the Notice of Abandonment was mailed on October 21, 2002; the dispute is whether the petitioner's correspondence sent on October 18, 2002 was wrongfully rejected because the application had been wrongfully abandoned.

Form of Mailing -- 37 C.F.R. §1.8

Regarding the form of the mailing, it is believed that the mailing that was submitted complied in every respect with 37 C.F.R. § 1.8. The examiner asserts that it did not conform to M.P.E.P. § 512, "Procedure by Applicant." Petitioner disputes that the certificate of mailing is inconsistent with any requirement. Admittedly, the mailing was not entirely consistent with what the Patent Office states "should" be included, although there is no indication that the reason why the correspondence was not entered had to do with the difference between what "should" have been done and what was done.

The certificate of mailing that was filed identified the date, facsimile number, examiner, and identified by name the attached documents that were being submitted. The other documents that were submitted contained the appropriate application number. In the experience of the undersigned, it is typical to have a certificate of mailing on a transmittal or on a single sheet of paper, notwithstanding that there may be multiple separate sheets of paper that make up the single correspondence. While the examiner is correct about what would and could have been done, the submission is believed to have been consistent with all requirements of 37 C.F.R. §1.8 and the M.P.E.P.

Regarding the issue of delay, the undersigned telephoned the group secretary and the examiner to ask about the abandonment and why an abandonment had been entered. The

examiner indicated that he would look into it. It was assumed from the conversation, perhaps optimistically in retrospect, that the examiner was going correct the error.

When petitioners were preparing to file an appellant's brief, it was noticed that there had been no official correction of this error, and the previously correspondence followed.

Conclusion

Petitioners renew the request that the Patent Office withdraw the holding of abandonment as having been made in error, and accept the notice of appeal and petition for extension that were transmitted on October 18, 2002.

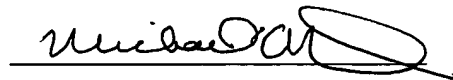

If necessary, petitioners are including a terminal disclaimer to disclaim any extension that may otherwise be granted as a result of the abandonment. The language that is used in the terminal disclaimer tracks the language in the M.P.E.P. of the purpose for the terminal disclaimer.

If there is any other information that can be provided to resolve this matter, the special program examiner is invited to call the applicant's attorney at the telephone number listed below.

It is believed that no fee is due. The Commissioner is authorized to charge any fee that may be due to Deposit Account No. 08-0219.

Respectfully submitted,

Date: February 28, 2003
